Project Charter

Project- SpectroGuard		
PROJECT PARTICIPANTS		
Name	**SPECTROGUARD**	
Stakeholder	Project Sponsors	Marathwada Mitra Mandal's Institute of Technology
	Customers	Technical and Non-Technical global users
Project Manager	Project Manager	Kapil Waghumbare
	Assistant Project Manager	Pratiksha Alhat
Email	kapilwaghumbare@gmail.com	
Project Team	Kapil Waghumbare, Pratiksha Alhat, Shraddha Gadekar.	
PROJECT DESCRIPTION		
Goal Statement	To design and develop a user-friendly web-based cybersecurity toolkit containing four security models. A password predictability checker trained using a higher-order Markov model, a URL safety validator using blacklist and heuristic analysis, an AI-based phishing website detector using a support vector machine, and a document validator using SHA-256.	
Objective	To develop an intuitive web platform that mitigates social engineering risks for non-technical users by providing automated, real-time verification of malicious links and counterfeit login pages.
